

Oxford Area School Horse Stay Programme

At Oxford Area School we have various opportunities within our homestays where our International Students can care for and enjoy being around horses.

Depending on availability we can offer a homestay where students can participate in equestrian activities and subject to riding ability, can ride the host families horse. If the student has had previous experience in caring for horses and the host families property is suitable, it may be possible for the student to lease or rent a horse.

There is also an excellent riding school close by, the Kowhai Residential School of Riding, which offers a range of riding programmes suitable for any level of ability, from beginner to competition. Kowhai also hold horse treks for students to explore the beautiful local countryside.

Please contact your agent or us if you would like further information about horse experiences at Oxford Area School.
